## Education Abroad Summer 2017 - 5 Weeks Business Program

---

### Program Description

Experience British culture firsthand while living in an authentic castle that is over 700 years old! This dramatic setting provides students an amazing place to live and learn in the beautiful countryside of Northumberland. Studying in England will enhance your understanding of the global context of business and prepare you for today's workplace. We live in a global marketplace and the U.S. is a leading global trader. The United Kingdom ranks in the top 10 countries for Minnesota exports. Employers place a high value on international education experience as it demonstrates valued traits such as resourcefulness, independence and initiative. This program will focus on two business courses that will introduce students to cross-cultural differences within business practices and their impact on the global work environment.
